Battle Card

A more complex, full comparison is also available

imunify 360

BITNINJA
SERVER SECURITY

MALWARE SCAN

imunify360
- Capable of cleaning out most of the malware
- Just the scan time takes twice much time compared to BitNinja
- Only cleans infections after the scan phase finished

BITNINJA
- The most effective malware scanner in the market
- Simultaneously scans and cleans
- Blazing fast quick scan and a thorough deep scan

SERVER MANAGEMENT

imunify360
- Each server is individually managed
- You can choose to link the servers together with some effort

BITNINJA
- Centralized Dashboard
- Check the most important, real-time information under one roof
- Ideal solution for Enterprise and SMBs alike
- Possible to manage servers individually or in server groups

CONTROL PANEL

imunify360
- Need a control panel to install
- The owners of multiple machines will run into extra work while installing, configuring, and managing the cluster

BITNINJA
- Control panel independent but fully compatible with them, such as cPanel, Plesk, DirectAdmin etc

INSTALLATION

imunify360
- Installation time depends on the integrations
- If you have the needed integrations, then the installation is a couple of clicks,
- If you do not have one, the process is more effort and time.

BITNINJA
- One line of code installation on multiple servers with minimal effort (maximum of 5 mins).

IP REPUTATION AND LOAD

imunify360
- Reports an IP list the size of 15,000 entries
- Its malware engine can chew up a considerable amount of resources

BITNINJA
- Has the most extensive IP list thanks to Defense Network (65 times larger with well over 1 million entries on every machine)
- This IP reputation system blocks bots automatically
- Users have experienced up to a 40% reduction in load

SUPPORT

imunify360
- Offers free 24/7 customer support with much slower response times

BITNINJA
- Offers free 24/7 chat support, that most of the time gives responses in less than fives minutes

SAVES TIME

REDUCES SERVER AND TEAM LOAD
